4 Courses

Programming Fundamentals

Writing, Running, and Fixing Code in C

Pointers, Arrays, and Recursion

Interacting with the System and Managing Memory

Sep 3, 2020

Anant Vikram Singh

has successfully completed the online Specialization

Introductory C Programming

This specialization develops strong programming fundamentals for learners who want to solve complex problems by writing computer programs. Through four courses, you will learn to develop algorithms in a systematic way and read and write the C code to implement them. This will prepare you to pursue a career in software development or other computational fields.

Andrew D. Hilton
Associate Professor of the Practice
Electrical and Computer Engineering

Genevieve M. Lipp
Assistant Professor of the Practice
Electrical and Computer Engineering
Mechanical Engineering and Materials Science

Anne Bracy
Senior Lecturer
Computer Science,
Cornell University

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
